Under the Americans with Disabilities Act, PRC must make a reasonable accommodation to allow a person with a disability to take part in a program, service or activity. For example, this means that if necessary, PRC must provide sign language interpreters for people who are deaf, a wheelchair accessible location, or enlarged print materials. It also means that PRC will take any other reasonable action that allows you to take part in and understand a program or activity, including making reasonable changes to an activity. If you believe that you will not be able to understand or take part in a program or activity because of your disability, please let us know of your disability needs in advance at all possible. Please contact PRC at 602-253-6895.

Help Yourself to a Healthy Home

Most of us spend more than 70% of our time in our home. This means the health of our home can have a direct impact on the health of the people living there. Did you know your home might have hidden dangers to you and your children’s health? Ask yourself:

- Is the air in your home clean and healthy?
- Does anyone in your family have asthma or allergies?
- Does your bathroom and kitchen have exhaust fans---do you use them?
- Is there lead anywhere in your home?
- Do you use household products with chemicals in them that can make you sick?
- Do you use bug spray or other products to keep away pests?
- Do you know the signs of carbon monoxide poisoning?

The eight principles of a healthy home include:
Help Yourself to a Healthy Home

1. **Keep it Dry**: Prevent water from entering your home through leaks in roofing systems, rain water from entering the home due to poor drainage, and check your interior plumbing for any leaking.

2. **Keep it Clean**: Control the source of dust and contaminants, creating smooth and cleanable surfaces, reducing clutter, and using effective wet-cleaning methods.

3. **Keep it Safe**: Store poisons out of the reach of children and properly label. Secure loose rugs and keep children’s play areas free from hard or sharp surfaces. Install smoke and carbon monoxide detectors and keep fire extinguishers on hand.

4. **Keep it Well-Ventilated**: Ventilate bathrooms and kitchens and use whole house ventilation for supplying fresh air to reduce the concentration of contaminants in the home.

5. **Keep it Pest-free**: All pests look for food, water and shelter. Seal cracks and openings throughout the home; store food in pest-resistant containers. If needed, use sticky-traps and baits in closed containers, along with least toxic pesticides such as boric acid powder.

6. **Keep it Contaminant-free**: Reduce lead-related hazards in pre-1978 homes by fixing deteriorated paint, and keep floors and window areas clean using a wet-cleaning approach. Test your home for radon, a naturally occurring dangerous gas that enters homes through soil, crawlspaces, and foundation cracks. Install a radon removal system if levels above the EPA action-level are detected.

7. **Keep it Well-maintained**: Inspect, clean and repair your home routinely. Take care of minor repairs and problems before they become large repairs and problems.

8. **Keep it Thermally Controlled**: Houses that do not maintain adequate temperatures may place the safety of residents at increased risk from exposure to extreme cold or heat.

Evidence shows that a well-maintained home that is dry, pest free, clean, well ventilated, and in good repair contributes to good health and a safer environment for the entire family. For more information healthy homes, visit [www.hud.gov/healthyhomes](http://www.hud.gov/healthyhomes) or the Lead Safe Phoenix web site at [www.phoenix.gov/nsd](http://www.phoenix.gov/nsd).

Dear Neighbor:

It’s hard to believe that another summer has drawn to a close and the new school year is about to begin. I hope each of your summers were filled with family and fun, and that our students and teachers are refreshed and ready to take on a new school year full of learning and growing.

As someone whose life was transformed by public education, I believe strongly in the importance of ensuring that all our nation’s students have the opportunity to reach their full potential. Quality education is a vital investment in our children, our communities, our economy, and our future. The federal government, state governments, local school districts, and community stakeholders have a responsibility to work together to improve our education system and ensure that our children are equipped with the skills necessary to succeed in the competitive 21st century global economy.

In my time in Congress, I have worked with my colleagues to support high-quality education for all students and strong levels of funding for the Department of Education so that our teachers and our schools have the resources they need. It is critical that we make the necessary investments in our students, in our teachers, and in our schools. That is why, for example, I strongly support access to high-quality early learning programs like Head Start, which can set students on the right path and provide them with a solid foundation for their later education.

I am committed to working with parents, schools, and members of the community to improve our nation’s education system. My office is always open to help the people of Arizona’s 7th District. I encourage you to contact my office with any questions or concerns. If you need assistance, or just want to share your thoughts on an issue, please write, call, or email. I’m very proud of our staff, and everyone here stands ready to assist you.

Please visit my website at www.rubengallego.house.gov/contact/email or call my Phoenix office at (602) 256-0551 and ask to speak to a member of my staff.

I wish you and your families a healthy, safe and happy school year.

Sincerely,

Representative Ruben Gallego
Join your community by reading one book together this summer in Phoenix’s first community-wide reading program. Chosen by the community, our inaugural One Book | One Phoenix selection is *Parable of the Sower* by Octavia E. Butler.

One Book, One Phoenix
Snack & Chat
Book Discussion

Thank you to Arizona Florist located at 2050 S. 16th Street for hosting the luncheon at their amazing store on June 14, 2018. In addition, we appreciate our lunch sponsor All Western Mortgage who contracted with a local business - Taco Sonora located at 1009 S. 7th Street for the great food!

The luncheon highlighted Director Chris Hallet of the City of Phoenix Neighborhood Services Department who focused on efforts responding to the impact of homelessness on local businesses.

The Business Network is facilitated by Phoenix Revitalization Corporation and supported by APS and LISC Phoenix.
How to Protect Your Children from Lead Poisoning

What can you do?
In your home, if it was built before 1978:

- Mop smooth floors (using a damp mop) weekly to control dust.
- Take off shoes when entering the house or place a cleanable mat at each entranceway.
- Wash your child’s hands often, especially before meals, snacks, and bedtime.
- Wash toys, pacifiers and other things your child may put in his or her mouth.
- Wipe down surfaces that children can touch, especially windowsills. Use a wet rag or disposable wipes.
- Cover bare soil or encourage children to play on grass, not dirt.
- Plant vegetable gardens away from old painted buildings or busy roads.
- Remove old batteries and radiators that may be stored in yards.
- Use lead safe work practices when remodeling or making repairs that will disturb painted surfaces.

You have the power to help protect your children and family from the dangers of lead poisoning.

The Lead Hazard Control Program (LHCP)
The city of Phoenix, Neighborhood Services Department Lead Hazard Control Program received Federal money to provide no cost grants to help homeowners, landlords and tenants in target areas control hazards from lead in paint, soil and dust.

To qualify for assistance, residents must have:

- a low-to-moderate income level
- a child under six living (or visiting) on the property; or a pregnant woman residing at the property
- the residence must have been built before 1978

No cost services include testing the home or apartment for lead hazards; children less than six years of age are tested for lead; lead hazard control work conducted by certified lead abatement contractors; and, provides family education on lead poisoning prevention and other referrals, as needed. The program is also a source for information about childhood lead poisoning prevention.

For further information about the Lead Hazard Control Program, call 602-534-4444 or visit the Lead Safe Phoenix web site at www.phoenix.gov/nsd. Visit these websites for additional information: U.S. Department of Housing and Urban Development, Office of Lead Hazard Control and Healthy Homes (www.hud.gov/offices/lead), Centers of Disease Control and Prevention (www.cdc.gov), and Environmental Protection Agency (www.epa.gov/lead).
Expanding solar across Arizona

Solar energy is one of the most talked about topics in Arizona. And for good reason: it's clean and sustainable. However, for some it may not be an option. That's why we created the APS Solar Communities program. It gives limited- and moderate-income customers an opportunity to access solar. Qualifying single-family residences are invited to participate. View requirements below.

Participants will receive a monthly credit of $30 on their energy bill for 20 years. The program is absolutely free to qualifying customers (see reverse side for details).

APS is committed to bringing affordable solar to more customers. And we need our customers' help to make it happen. We supply the solar panels, do the installation, and maintain the panels for the life of the program.

What type of homes qualify?
- Single-family homes with a west- or south-facing roof with little to no shade and in good condition that can accommodate a minimum of 14 solar panels.*
- Mobile homes do not qualify.
- Manufactured homes need to meet "single-family" requirements and pass a review.
- Townhomes and condominiums need to meet "single-family" requirements and the owner must own the roof space.

Households can save $360 a year on their energy bills

To be eligible, your roof must:
- Have enough space that is west- or south-facing
- Have little to no shading
- Be in good condition

To learn more, visit aps.com/solarcommunities or call (844) 605-4340.
APS SOLAR COMMUNITIES PROGRAM

Solar for all Arizonans

Title 1 schools, non-profits, rural government and municipalities serving limited-income residents provide a valuable service to Arizona. In turn, we invite you to participate in the APS Solar Communities Program. It’s free and offers qualifying organizations the opportunity to receive free solar-covered parking and a monthly bill credit on their electric bill.

Program highlights
- Free solar-covered parking structure on the property
- Monthly bill credit based on parking structure size
- Absolutely no cost to you
- APS owns and maintains the structure for 20 years

Program requirements
- Enough space for a 50kW system (about 20 parking spots)
- No existing covered parking on site
- Not located on a high-voltage feeder

Get free solar-covered parking, plus a monthly credit on your energy bill

To learn more, visit aps.com/solarcommunities or contact your APS Community representative.

Other restrictions apply. For full program details and organizational definition visit aps.com/solarcommunities
Summer can be ideal time to prepare your child for kindergarten

PHOENIX (June 7, 2018) – The months leading up to the first day of kindergarten can be an ideal time to prepare your child for what to expect. Many kindergarten teachers tell parents that basic everyday activities are the best ways to help a child feel confident and ready for the transition to kindergarten.

“Have conversations with your child about what school will be like,” said Vicky Vela-Thai, creator of Kindergarten Bootcamp at Phoenix Public Library. “Make sure to give them a chance to ask questions and tell you if something about school makes them anxious or scared. Do activities to help build their fine motor skills. Let them draw, paint, play with playdough or slime, write, and practice cutting. Help build classroom skills by having your child clean up after themselves and helping you with chores.”

Below are some tips from First Things First to help your preschooler have a fun, easy transition to kindergarten:

- Read with your child at least 20 minutes per day. Try books that repeat words; involve activities like counting, identifying colors, objects or letters; or, are about things your child likes. Ask questions like, “What do you think happens next?”
- Talk with your child everywhere – at home, in the car, at the store. Make up stories or songs about your outings.
- Writing begins with scribbling. Give your child safe writing tools to play with, like crayons, chalk or markers and blank paper. Ask your child to tell you about their drawings.
- Teach your child how to use the bathroom by themselves, to wash their hands after going to the bathroom and before eating, to blow their nose and sneeze into their elbow.

Before the first day, talk with your child about what to expect during the school day and types of after-school activities they may be involved in. The more details kids know, the less anxious they will feel.

Rehearse for the big day with test-runs of the new routine, which will include:

- Choosing what to wear the night before.
- Waking up with early to have plenty of time to get ready.
- Eating a healthy breakfast.
- Walking to the bus stop and talking about boarding and where to sit.
- Practicing how to open parts of lunch, whether it’s a carton of milk or a small bag of carrots. Remind them that teachers or lunch staff can help if needed.

Even if you don’t have kindergarteners this year, it’s never too early to start helping toddlers and preschoolers prepare. Children who have positive early childhood experiences tend to score higher on school readiness assessments and are more likely to do well in school and graduate. By turning everyday moments into learning moments, we can send our young kids to school with the skills – and the love of learning – that will help them succeed in kindergarten and beyond!
Local Students Wrap Up a Successful Summer as South Central Extension Interns

Five local high school students have successfully completed the South Central Extension Summer Internship Program. The students were among several that applied and expressed interest in a career in either architecture, engineering, construction and/or design. The eight-week program included a visit to the ASU's school of Engineering, a tour of the South Central Extension and one-on-one meetings with industry mentors. Congratulations, to the following students:

- **Daniela Villareal**, Franklin Police and Fire High School
- **Janae Broughton-Moore**, South Mountain High School
- **Jouselyn Lopez**, NFL Yet College Prep Academy
- **Micayla Coleman**, Mountain Pointe High School
- **Naty’a Toney**, McClintock High School

New Extended Hours at the South Central Extension Community Office

Want to learn more about the South Central Extension? Stop by and meet with the project team during the new office hours or by appointment.

**South Central Extension Community Office**
5040 S. Central Ave, Phoenix (Central Ave/Roeser Rd)

- **Monday – Friday**: 9 a.m. – 6 p.m.
- **Saturday**: 9 a.m. – noon

To make an appointment call (602) 687-8585 or email southcentral@valleymetro.org.

Valley Metro and the city of Phoenix opened the South Central Extension Community Office in February 2018. Conveniently located along the future light rail extension, the office provides the community another way to connect with members of the project team. Public meetings will also begin next month. More information to come. For additional info on the South Central Extension project and the community office, visit valleymetro.org/southcentral.
A Girl Scout is a **G.I.R.L. (Go-getter, Innovator, Risk-taker, Leader)**TM powerhouse!

At Girl Scouts, girls discover who they are, where their talents lie, and what they care most about—all in a safe, no-limits place designed to unleash their full **G.I.R.L.** potential. They connect with people in their communities, and they take action to change the world. Through our program, the Girl Scout Leadership Experience, girls develop a strong sense of self, display positive values, and seek challenges at every turn. They learn from setbacks, form healthy relationships, and identify and solve problems in their communities.

**How does she find the power of G.I.R.L. in her?**

Girl Scouts teaches girls to empower themselves by engaging in collaborative, hands-on, girl-led experiences. Guided by supportive adults who help them pursue their goals, girls participate in a variety of fun and challenging activities. Here she will:

- Engage in healthy activities!
- Find her entrepreneurial spirit and learn financial literacy!
- Explore the great outdoors!
- Participate in hands-on STEM skill-building!
- Connect with girls around the world!
- Take on meaningful community service projects!
- Take the lead—in her own life and in the world!

Learn more at [girlscoutsaz.org/join](http://girlscoutsaz.org/join)
DNA of a G.I.R.L.

She's a go-getter, innovator, risk-taker, leader!

- Sets goals and sticks to them
- Works hard to bring positive change to the world
- Sees new solutions to old problems
- Speaks up for herself and others
- Takes pride in her abilities and successes
- Builds team spirit and brings people together
- Runs for leadership positions

- Has an imagination that knows no limits
- Seeks new adventures and experiences
- Listens to opinions and feelings different from her own
- Takes action on issues dear to her heart
- Handles conflict with compassion and clear communication
- Falls down and gets back up

POWERED BY GIRL SCOUTS
4 Simple Things Fathers (And Really, All Men) Can Do To Raise Girls Up

We know you want the best for the girls in your life—and that few things are as important to you as their health, safety, happiness, and access to opportunities in life. But wanting something and taking action to make it a reality are two very different things. That’s right—it’s not enough to simply hope for the best when it comes to your girl, you have to actually help create that bright future for her.

Your girl needs you more than you know. In fact, a girl’s relationship with her father lays the foundation for her confidence and her future relationships and expectations of men. Here are four simple ways you can set your girl up for success in life.

1. Include Her in Your World
2. Talk the Talk and Walk the Walk
3. Get Excited About Her Interests
4. Don’t Give Bad Behavior a Free Pass

A world in which we all contribute to helping girls reach their bright, bold potential is a better world for everyone. Girls need (and want!) their dads and father figures in their lives just as much as they need their mothers and female mentors. Thanks for doing your part, and for helping girls to be the best they can be.

Six Ballot Measures on Aug. 28 Election Ballot
August 2018 Special Election

Purpose

On Tuesday, Aug. 28, 2018, registered voters residing in the City of Phoenix will vote on six* ballot measures referred by the City Council.

1. The first measure is a proposed Charter Amendment that would change regular City of Phoenix candidate elections from the fall of odd-numbered years to November of even-numbered years, with Runoff elections in the following March.
2. The second measure is a proposed Charter Amendment that would permit the City Council to remove elective office holders for violating the City of Phoenix Non-Discrimination and Anti-Harassment Policy.
3. A third measure is a proposed Southwest Gas Corporation franchise agreement.
4. The fourth measure is a proposed Charter Amendment that would eliminate the Charter requirement to have the full text of propositions printed on the ballot without unanimous approval by the City Council.
5. A fifth ballot measure is a proposed Charter Amendment that would change the terms of the Citizens' Commission on Salaries for Elected City Officials to align with Mayoral elections in even numbered years, and require the Commission to meet every four years rather than every two years.
6. The sixth ballot measure is a proposed Charter Amendment that would allow the City Clerk to verify a 20% random sample of initiative and referendum petition signatures.

*These six propositions are currently scheduled to appear on the ballot for the Aug. 28, 2018 Primary Election being conducted by Maricopa County. Due to space limitations on the State Primary Election ballot, it is possible that one or more of these measures may not appear on the Aug. 28 ballot. Instead, the Council may refer one or more of these measures to a future election date.

Polling Places

Because Maricopa County will be conducting the election, traditional polling places will be used with one polling place designated for each county voting precinct. Voters must vote at the one specific polling location designated for the precinct where they reside. These polling places will only be open on Election Day (Tuesday, Aug. 28) from 6 a.m. to 7 p.m. Voting centers will not be used for this election.

Voters will be able to obtain information about their polling place in several ways. The name and address of the polling place for each voter's household will be identified on the Sample Ballot (provided by Maricopa County) and the Publicity Pamphlet (provided by the City of Phoenix) that will be mailed to each voter's household prior to the election. Voters also will be able to search for their polling place location on the Maricopa County Elections webpage beginning about 80 days before the election.
From the City Clerk's Office in Phoenix

Six Ballot Measures on Aug. 28 Election Ballot
August 2018 Special Election

Early Voting

City voters on the Permanent Early Voting List (PEVL) will automatically receive an early ballot by mail unless they are registered as "independent" or "no party preference", or submitted a request to not receive a ballot by mail. Because the August election is also the partisan, open State Primary Election, voters who are registered as "independent" or "no party preference" must request which ballot type they want, even if they are on the PEVL, to receive an early ballot by mail. "Independent" or "no party preference" voters may request either a specific party ballot or the non-partisan/city-only ballot by returning a notification card that will be mailed by Maricopa County 90 days before the election and indicating which ballot type the voter wishes to request, by contacting Maricopa County at 602-506-1511 or on the Maricopa County Recorder's website. "Independent" and "no party preference" voters will not receive an early ballot by mail for the August 2018 election without requesting a specific ballot type.

Voters who are not on the PEVL can request an early ballot from Maricopa County no later than Friday, Aug. 17 by calling 602-506-1511 or on the Maricopa County Recorder's website. Early ballots will be mailed beginning Wednesday, Aug. 1. Voted early ballots may be returned by mail or may be delivered to any of the Maricopa County Elections offices, the Phoenix City Clerk Department, to any early voting site, or to any polling place on Election Day. To be counted, voted early ballots must be received by an election official no later than 7 p.m. on Election Day.

In-person early voting also will be available weekdays from Wednesday, Aug. 1 through Friday Aug. 24, during normal business hours at Maricopa County Elections offices and on the 15th Floor of Phoenix City Hall.

Publicity Pamphlet

The City will prepare and distribute a Publicity Pamphlet. Voters who requested to obtain the publicity pamphlet electronically, which reduces printing and mailing costs, will receive an e-mail notice when the pamphlet is available online at Phoenix.gov/Elections. Voters can add their names to the list or update their email address by visiting the City's election webpage or by calling the City Clerk Department at 602-261-8683. A pamphlet will be mailed to each residence in the City that has a registered voter who is not receiving the pamphlet electronically. The publicity pamphlet will be distributed the week of July 23, before early ballots are mailed by Maricopa County.

Phoenix Sky Harbor Offers New, Convenient Time-Saving Amenities

Special to Central City South

From urgent care service to checking security wait times, Phoenix Sky Harbor offers an array of time-saving amenities that are new or little known for any on-the-go traveler boarding flights at America’s Friendliest Airport®.

Earlier this spring, the traveling public was provided a timely walk-in urgent care option for their non-life threatening illnesses courtesy of US CareWays. The service was introduced in Terminal 4 and offers treatment to any patient over the age of six months, including addressing minor injuries and offering select onsite prescription needs. Typical ailments and injuries that can be treated at US CareWays include – but are not limited to – ear infections, asthma, anxiety, sprains, contusions and more. This urgent care is open inside Drugs & More on level 3 and is open daily from 8 a.m. to 8 p.m.

One very helpful amenity for travelers is the ability to check wait times for the security checkpoints before you arrive, on skyharbor.com and then once you arrive, on our flight information screens in the terminals and PHX Sky Train® Stations? Tip: If you are traveling through Terminal 4, you can use any of the four security checkpoints to access your gate.

And, now people needing customer service assistance at the airport can speak or text with a Sky Harbor representative by calling 602-622-4132 Monday through Friday 8 a.m. to 5 p.m. This service, which will soon expand additional hours in the evenings and on Saturday afternoons and evenings, will allow individuals to call in and report something that needs attention or express any concerns related to the airport.

And, travelers shouldn’t forget about Sky Harbor’s Prepaid Discount Parking program that gives them the opportunity to save money and reserve their parking in advance. Travelers can save up to 26% off convenient terminal garage parking. Prepaid Discount Parking is also available in the East Economy parking area.
Read on Phoenix/AARP Experience Corps Phoenix

The City of Phoenix, in partnership with the AARP Foundation is recruiting volunteers 50 years and above to support a tutoring program designed to improve reading fluency skills for Phoenix elementary school students. Volunteer Literacy Tutors meet weekly with their assigned students within nine partnering Phoenix school districts. If you enjoy working and inspiring our youth - this opportunity is for you!

For more information, please contact the Youth and Education Office at (602) 256-4388 or ecphx@phoenix.gov or visit our website at: https://www.phoenix.gov/education/experience

MariSol Federal Credit Union ran a swimsuit donation drive for our Sizzling Safe Summer Campaign Pool Parties. Over 50 swimsuits were donated along with $75 for life jackets.

CITY OF PHOENIX
Cooling Ordinance
from Phoenix City Code, Chapter 39-5

Did you know there is a city ordinance that requires landlords to provide reasonable cooling to rental housing units?

☑️ All AC units must cool to 82 degrees or below
☑️ All EVAP coolers must cool to 86 degrees or below
☑️ Cooling systems need to be maintained in good working order

To speak with a Landlord/Tenant counselor about your rights or to report an AC violation, call 602-534-4444.

For questions or more information, call Neighborhood Services Department at 602-534-4444.
