Phoenix Sky Harbor Continues to Improve the Passenger Experience
Special to Phoenix Revitalization Corporation

All projects, especially large, complex projects, need a clear goal, and currently Phoenix Sky Harbor has a couple of projects that share the same ultimate goal – improve the passenger experience.

These efforts are part of a $2 billion Capital Improvement Program (CIP), and you may have seen part of the construction upgrades if you’ve traveled through the airport recently. The projects are the construction of an eighth and final concourse at Terminal 4 and the PHX Sky Train® extension to the Rental Car Center.

The newest concourse is scheduled to open in 2022, and all of the new eight gates in the 130,000-square-foot concourse will be served by Southwest Airlines.

Some other aspects to the project include:

- Development of spaces for retail and food and beverage concessions
- A new bridge to connect the south concourses to the north concourses on the west side of Terminal 4
- A new transfer bridge to connect the new concourse to the existing D concourse
- Additional ticket counters
- New baggage handling systems
- An additional baggage claim carousel to support the additional gates and associated travelers.

Additionally, the final Phase 2 extension to the Phoenix Sky Train® guideway is under construction and will add 2.5 miles of track to the service. This will connect directly to the Rental Car Center. Improvements under this project include improved accessibility, including for customers using wheelchairs, and reducing traffic on Sky Harbor Boulevard. When Phase 2 is completed in 2022, all bus service between the Rental Car Center and the terminals will be eliminated.
Connect With Us And Heal

In a 12 week series of 1-hour classes we will address addiction and habits by way of a Biblically based structure that connects the 12 steps of recovery and scriptures.

What We Will Do

- Illuminate spiritual truths behind the 12 steps
- Correct distorted views of addiction and God
- Expand your understanding of God and how to relate to him
- Lead you toward the will of God for your life
- Point you to Biblical characters that demonstrated healthy and unhealthy ways of dealing with dysfunction

You are invited to a neighborhood open house to learn about APS plans to build a new electrical substation near 4th Avenue & Grant Street.

4:30 to 6:30 p.m., Wednesday, March 6, 2019 Hope VI Emmett McLoughlin Community Training & Education Center
1150 South 7th Ave., Phoenix AZ 85007

Dear APS customers, property owners & stakeholders:

As you know, downtown Phoenix has grown significantly in recent years, and is expecting even more growth over the next decade. Arizona Public Service (APS) is planning to build more infrastructure to power that development, including a new electric substation adjacent to our existing facilities at 4th Avenue and Lincoln Street.

While APS currently owns property on the southwest corner of 4th Avenue and Grant Street, we are considering a property exchange that may move the substation one block north, along Lincoln Street.

An important part of our planning & design process is collecting input from residents, property owners, businesses and community organizations. That is why we are inviting you to this open house. We’ll share more about this project, our site selection process and potential architectural designs. More importantly, we want to hear from you.

In addition to your valuable feedback regarding the proposed substation location, we also would like to incorporate your ideas and input regarding the project’s architectural features. Design elements may include, but are not limited to:

- Walkable/active pedestrian space, including sidewalks;
- Installation of shade trees and vegetation;
- Artistic elements (murals, community artwork, etc.);
- Enhanced street lighting; and
- Architectural designs that blend in with existing neighborhood plans/themes.

Following this initial open house, APS will evaluate the community’s input and analyze the two location alternatives for the new substation. After all information has been reviewed, APS will conduct multiple meetings with community stakeholders before finalizing our project plans.

Substation construction is currently scheduled to start by June 2020. We anticipate completion of the project by June 2021.

For information regarding this project, please contact Kendra Lee, APS Program Manager, at (602) 371-7872 or Kendra.Lee@aps.com.
Se les invita a una reunión del vecindario al estilo casa abierta para aprender acerca de los planes de APS de construir una nueva subestación eléctrica cerca de 4th Avenue y Grant Street.

Miércoles 6 de marzo de 2019, de 4:30 a 6:30 p.m.
Centro Hope VI Emmett McLoughlin Community Training & Education Center
1150 South 7th Ave., Phoenix AZ 85007

Estimados clientes de APS, dueños de propiedades y partes interesadas:

Como ustedes saben, el centro de la ciudad de Phoenix ha crecido significativamente durante los últimos años, y se espera aún mayor crecimiento a través de la próxima década. Arizona Public Service (APS) está planeando construir más infraestructura a fin de proveer energía para dicho desarrollo, incluyendo una nueva subestación eléctrica adyacente a nuestras instalaciones existentes en 4th Avenue y Lincoln Street.

Mientras que actualmente APS posee la propiedad en la esquina suroeste de 4th Avenue y Grant Street, estamos considerando un intercambio de propiedades que podría ubicar la subestación una cuadra al norte, a lo largo de Lincoln Street.

Un parte importante de nuestro proceso de planeación y diseño es la recolección de comentarios de los residentes, dueños de propiedades, empresas y organizaciones comunitarias. Es por eso que los estamos invitando a este evento al estilo casa abierta. Nosotros compartiremos más sobre este proyecto, nuestro proceso de selección del sitio, y diseños arquitectónicos potenciales. Y aún más importante, queremos escucharlos a ustedes.

Además de sus valiosos comentarios sobre la ubicación propuesta para la subestación, también nos gustaría incorporar sus ideas y aportaciones con respecto a las características arquitectónicas del proyecto. Los elementos de diseño del mismo pueden incluir, pero no están limitados a:
- Espacio peatonal transitable/activo, incluyendo banquetas;
- Instalación de árboles de sombra y vegetación;
- Elementos artísticos (muros, arte comunitario, etc.);
- Alumbrado público mejorado; y
- Diseños arquitectónicos que encajen en los planes/temas existentes del vecindario.

Después de este evento inicial al estilo casa abierta, APS evaluará los comentarios de la comunidad y analizará las dos alternativas para la ubicación de la nueva subestación. Después de que toda la información haya sido revisada, APS llevará a cabo varias reuniones con las partes interesadas de la comunidad antes de finalizar nuestros planes del proyecto.

Para información con respecto a este proyecto, por favor comuníquese con Kendra Lee, Gerente de Programas de APS, llamando al (602) 371-7872 ó escribiendo a Kendra.Lee@aps.com.

The South Central Planning grant team is requesting your feedback to create a community plan for compact, walkable, pedestrian-friendly, mixed-use communities centered around high quality transit systems (otherwise known as transit-oriented development, TOD). It is our goal to document the South Central Corridor community's vision for the future and the legacy of the community.
